Integrated care pathway for the management of children and young people with Diabetic Ketoacidosis

If you are not experienced in managing children in DKA, ask for senior help now.

After doctor or consultant patient demographics below:

Name: _____

Date of Birth: _____

Hospital / NHS Number: _____

DKA protocol started at:

Time: _____

Initials: _____

IMPORTANT SAFETY NOTES:

These are general guidelines for management. Treatment may need modification to suit the individual patient and these guidelines do not remove the need for frequent detailed reassessments of the individual patient's requirements and specific treatment tailored to those requirements.

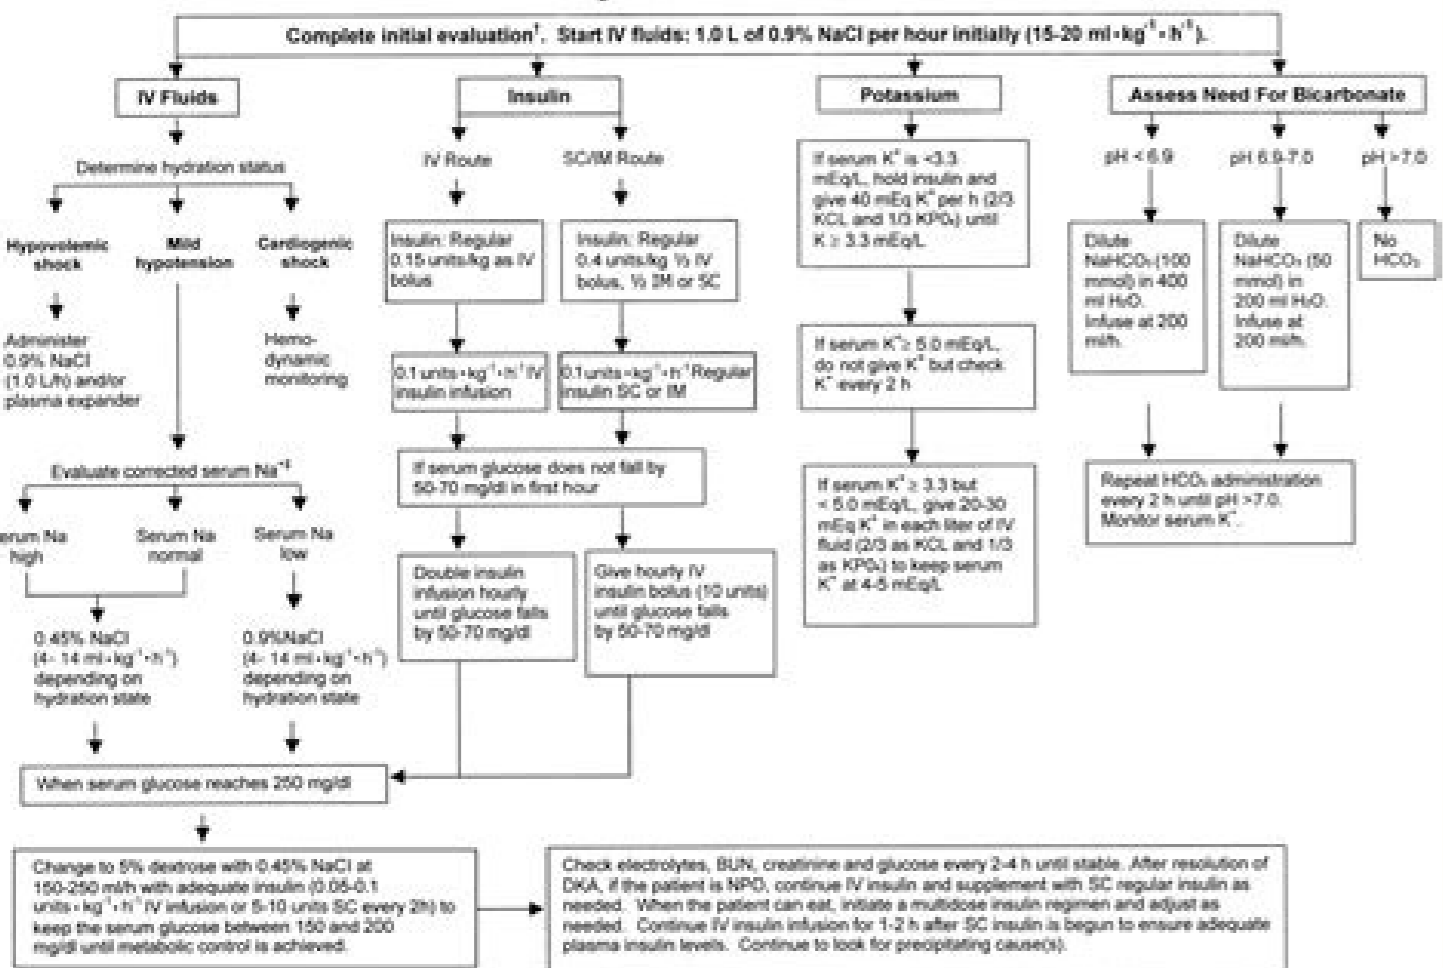

This integrated care pathway (ICP) is designed to be used by, or under the supervision of, clinicians experienced in the management of paediatric DKA. It should be used in conjunction with the full BSPED DKA 2020 guideline on which it is based which can be found at: <https://www.bsped.org.uk/clinical-reports/dka-guidelines/>

This is part of the official patient care record and should be filed in the patient's notes. All professionals involved must document any intervention carried out. When filling out a flow chart, you must complete the box in the lower right corner of the chart with your signature, name, and the date and time. Any variation from the care plan must be documented.

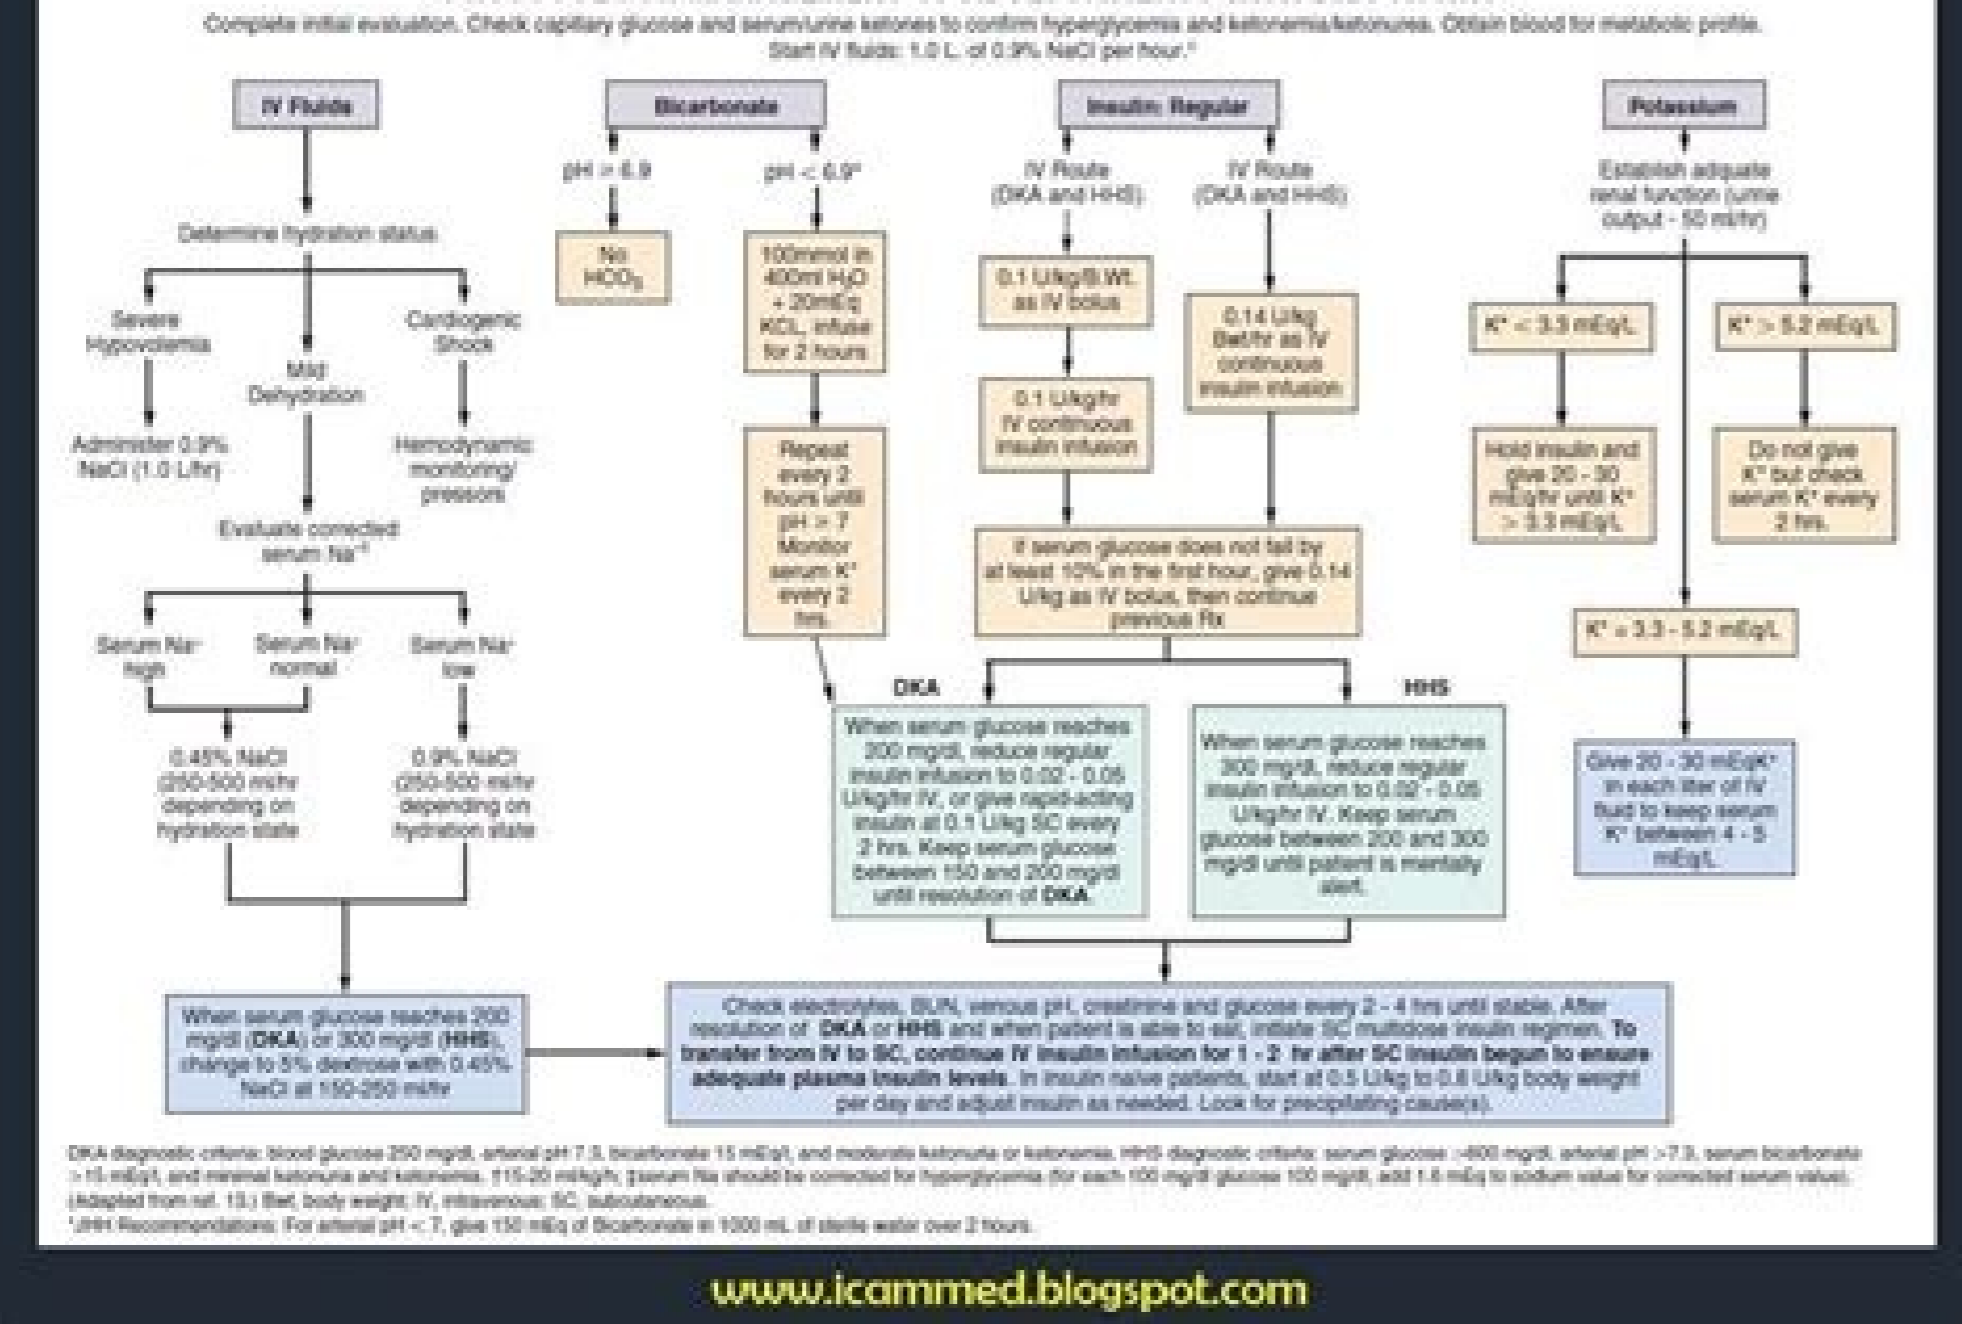

www.dka-calculator.co.uk

This ICP is designed in conjunction with an online calculator that will pre-fill elements, for example patient demographics and fluid calculations. While the ICP can be used

Management of Adult Patients with DKA*

PROTOCOL FOR MANAGEMENT OF ADULT PATIENTS WITH DKA OR HHS

Annual report 2018-19

Care processes and outcomes

Bsped paediatric dka guideline. Bsped dka guidelines 2020.

However, each patient should be considered as an individual in the context of their condition and therefore the readers' discretion is required in the application of their use. These guidelines are produced by accredited national bodies (e.g. NICE, RCPCH, ACDC, SIGN), of which BSPED are stakeholders. If you have a query or comment, or would like to raise a concern regarding a BSPED guideline, or any guideline on this page, please contact the BSPED Office who will ensure your message is passed to the BSPED Clinical Guidelines Officer and Clinical Committee. If a local trust wishes to publish their guidelines on the BSPED website, please email the BSPED Office (bsped@endocrinology.org) and we will put you in touch with our Clinical Guideline Officer, Dr May Ng. Chapterone documentation for clinical notes (provided by Birmingham Children's Hospital): Word version, Excel version, PowerPoint version The BSPED have not been involved in the development of these guidelines and take no responsibility for the content. Please note local guidelines may vary between Trusts. BSPED may have been involved in the development of these guidelines but are not the original authors of these guidelines. Guideline Type Source Executive summary - A Practical Approach to the Management of Type 2 Diabetes in children and young people under 18yrs Endorsed ACDC/BSPED Care of the Well Child-Newly Diagnosed with Type 1 Diabetes Endorsed ACDC/BSPED Sick day guideline executive summary v4 Endorsed ACDC/BSPED Sick day guideline Main V4 Endorsed ACDC/BSPED Management of Hypoglycaemia in Children and Young People with Type 1 Diabetes Endorsed ACDC/BSPED A Practical Approach to the Self Management of Diabetes As An Inpatient for Children and Young People Under 18 years Endorsed ACDC/BSPED A Practical Approach to the Management of Continuous Glucose Monitoring (CGM) / Real-Time Flash Glucose Scanning (FGS) in Type 1 Diabetes Mellitus in Children and Young People Under 18 years Endorsed ACDC/BSPED A Practical Approach to the Management of Steroid, Chemotherapy or Transplant Induced Hyperglycaemia or Diabetes in Children and Young People Under 18 years in the Acute or Inpatient Setting Endorsed ACDC/BSPED Dexcom G4 CGM Training Leaflet for Healthcare Professionals and Patients Endorsed ACDC/BSPED Dexcom G5 CGM Training Leaflet for Healthcare Professionals and Patients Endorsed ACDC/BSPED Medtronic 640G Training Leaflet for Healthcare Professionals and Patients Endorsed ACDC/BSPED Libre FGS Training Leaflet for Healthcare Professionals and Patients Endorsed ACDC/BSPED Libre FGS Training Leaflet for Healthcare Professionals and Patients Endorsed ACDC/BSPED Care of children under 18 years with Diabetes Mellitus undergoing Surgery - currently being updated Endorsed ACDC/BSPED Executive Summary: A Practical Approach to the Management of Continuous Glucose Monitoring (CGM) / Real-Time Flash Glucose Scanning (FGS) in Type 1 Diabetes Mellitus in Children and Young People Under 18 years Endorsed ACDC/BSPED Practical Management of Hyperglycaemic Hyperosmolar State (HHS) in children Endorsed ACDC/BSPED Management of Type 1 Diabetes Mellitus during illness in children and young people under 18 years (Sick Day Rules) Endorsed ACDC/BSPED Executive Summary: Management of Type 1 Diabetes Mellitus during illness in children and young people under 18 years (Sick Day Rules) Endorsed ACDC/BSPED Patient Advice for Management of Type 1 Diabetes Mellitus during illness in children and young people under 18 years (Sick Day Rules) Endorsed ACDC/BSPED *BSPED DKA Guidelines: The Clinical Committee of BSPED are aware that NICE has published its revised guidance on the management of Type 1 and Type 2 Diabetes in Children and Young People (CG 18) We are also aware that this revised NICE guidance differs from the current interim BSPED guidance on the cloud the fluid management of DKA. These guidelines are local trust endocrine guidelines which have been made available to BSPED members. Guidelines included on this page have been commissioned and endorsed by the BSPED and reflect the Society's views on best practice for the majority of patients with that condition. Please review the BSPED Clinical Guideline Endorsement document for the process. Skip to Paediatric Diabetes Guidelines Please refer to the ACDC website for Endorsed Guidelines for the most up to date diabetes guidelines listed below. Every effort has been made to ensure the factual accuracy of the contents but no liability can be accepted for any litigation, claims or complaints arising from the use of the guidelines. Authors of guidelines are required to sign the BSPED Declaration of Interest form (definitions of conflicting interests are listed on the form). The Clinical Committee plan to review this situation very quickly but do not feel that the current BSPED DKA guidance need to be removed from the website while this review and revision takes place.
